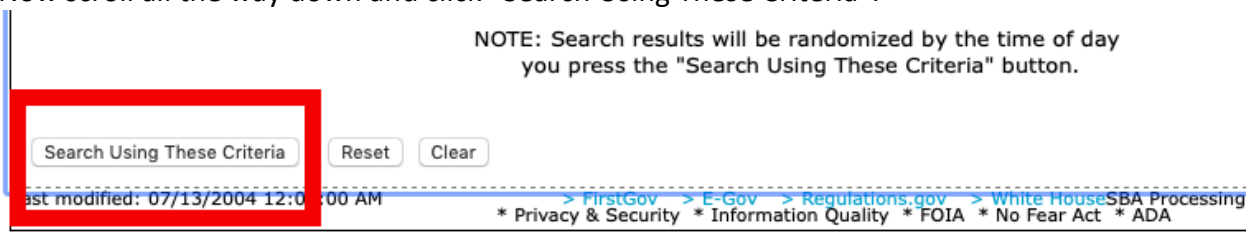
f. Now scroll all the way down and click “Search Using These Criteria”.



TADA that should give you a LIST that looks like this. Look for companies with incomplete profiles. I put red boxes on some I think are not doing government contracts. Please pay attention to the exit date as some will be expiring this year. Then start clicking on them to see their full profile. There you will find the contact info to call and email them. But call first!!

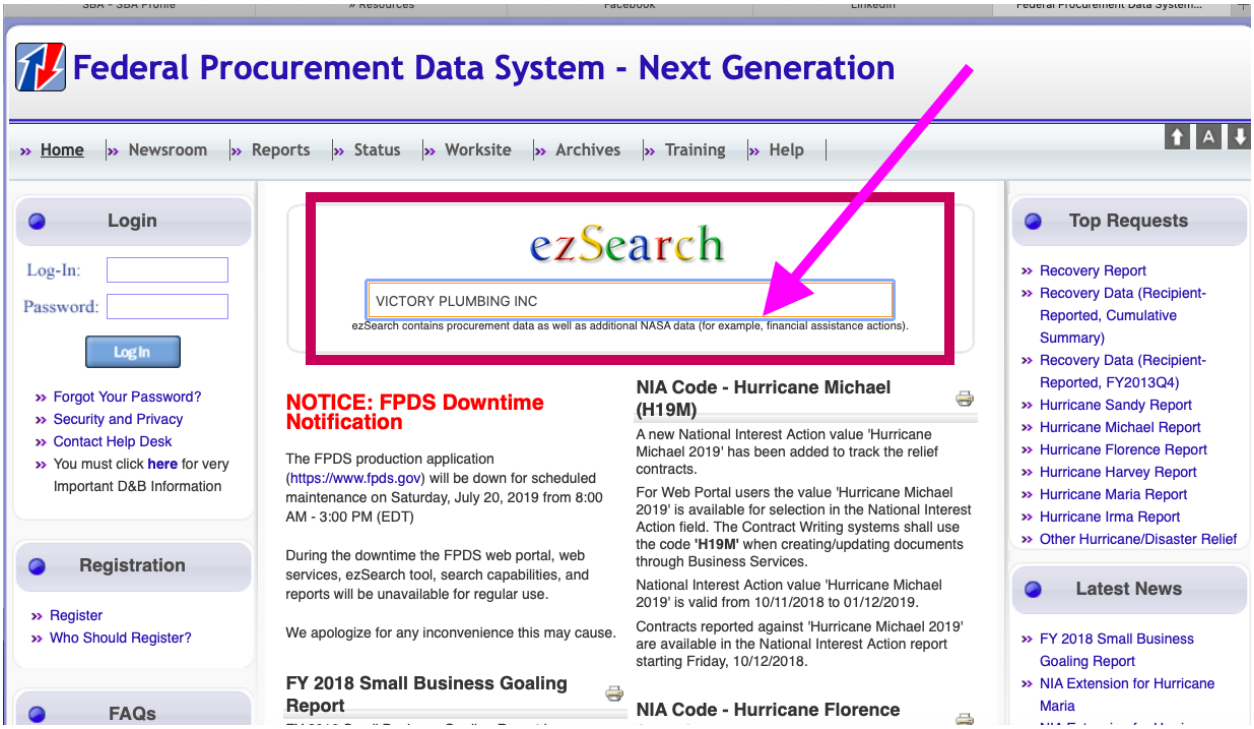
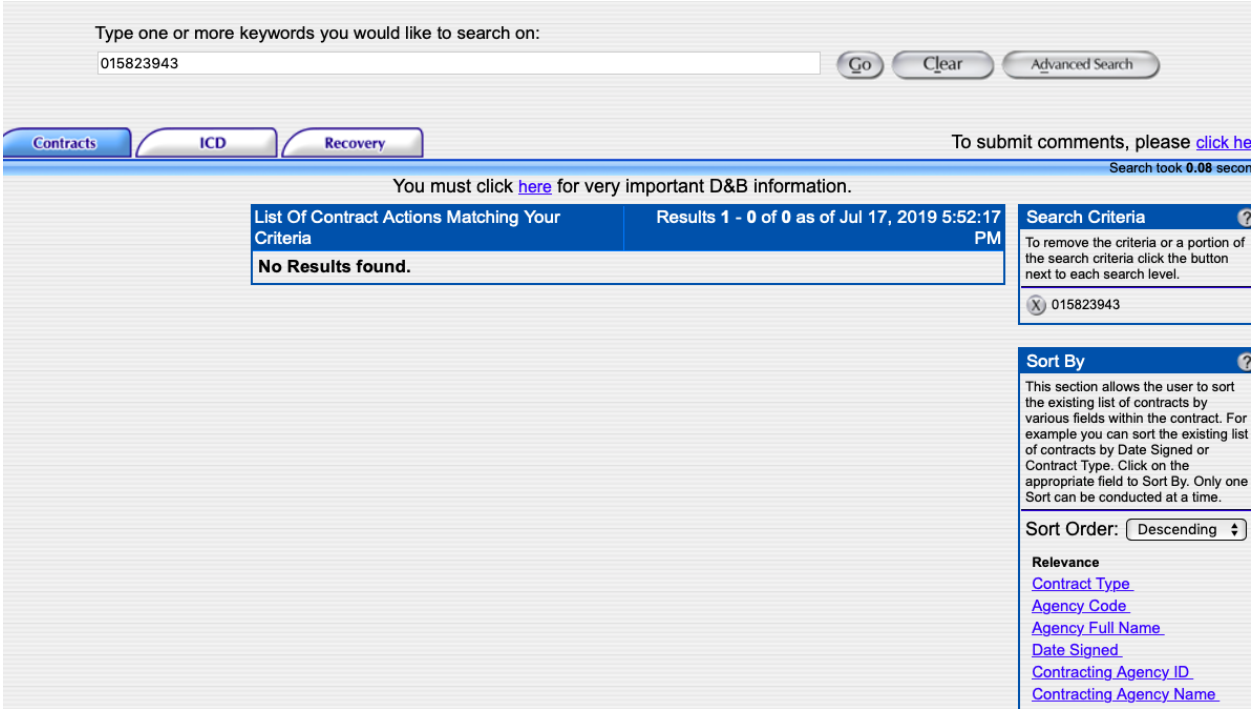
NOW… how do you make sure they are not currently doing contracts??
Well for that we will use the information on their profile and search in FPDS.

1. Go to: https://www.fpds.gov/fpdsng_cms/index.php/en/
2. Inside the search bar enter then name as it appears on their profile or for better results use their DUNS number.



If you get" No results found" then BOOM! You have a prospect. Pick up the phone and call.



What do I say when I call?

- Simply ask for the owner and introduce yourself. Tell them who you are and that you are a government contract consultant and you saw that they are currently 8a certified and are looking to help them find opportunities. Ask if they have a minute to talk or if they prefer another time or suggest a in person meeting.
- If they accept, I suggest you look to see how many contracting actions their NAICS code had in the past two years, look at their SBA profile and highlight what they are missing. I even printed some FBO opportunities. This showed them I knew a bit of what I was talking about and that I did some research about their company.
