What is the goal for this call
What do I need to say
What should I be looking for in the call
How do I pitch my services

Day 5: Form partnership get them to start working with you

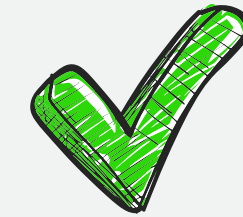

What's the next steps
What about charging money?
What about a signed contract?

Objective

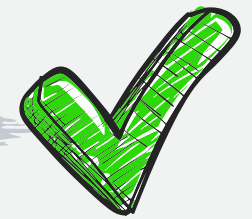

The goal of the challenge is to complete all the objectives on this checklist. Once that is completed then you are ready to start marketing yourself to the government and win a contract!

Objective Checklist

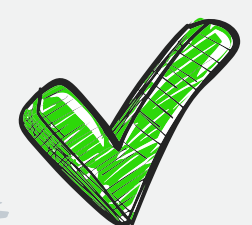

Pick a lucrative industry

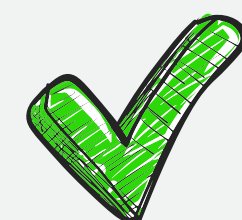

Finds Market Opportunities in your Industry

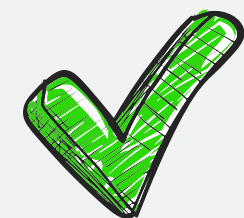

*Reach out to Companies who can perform
Market Opportunity*

Have initial meeting with company

*Form partnership get them to start
working with you*

Objective

Overview

This challenge is designed to fast track your journey in this arena. No matter what your industry is, this method that we're teaching involves 6 steps that has been proven to get the ball rolling for even the most inexperienced person. Let's start

How do I get the most out of the First Partner Challenge?

Get to step 3 as fast as possible because that's where the motion begins to start.

Ask questions in the chat

Participate in the role playing activities

The Faster you get to step 3, the faster you get results

What are the rules for this challenge?

When the presentation has started please keep you mic on mute until requested to speak

Put all your questions inside of the chat

There will be 30 min at the end to get all your other questions and concerns in so please be patient

Day 1: Pick a industry

Agenda

Why pick just one industry?

- Helps you with market research
 - Allows you to narrow down Key Words, NAICS, PSC codes
 - Allows you to communicate with decision makers with a singular focus
- Get to the strategy part quicker
 - Who buys what you sell - I'm selling to the government versus I'm selling to this office - here are the people I need to reach
 - Offices you need to contact
 - People to see. Stakeholders. Build org chart
 - Making contact with them
- Maximum 2 NAICS, PSC or Key Words

What industry should I pick?

- How general or how specific?
- Top 10 Industries
- Top 10 Construction
- Top 10 IT PSC

What if I don't see anything that I relate to?

- Choose something arbitrary for the purpose of the challenge
- Use it to learn the process and do the assignments
- Follow the roadmap

Can I change or add later?

- Weave in other lines of business, service areas later
- Expand your search as you develop clear understanding of process
- Grow with your customer
- Learn new information

Day 1 HW:

- Assignment 1:
Pick a Industry
- Assignment 2:

Find Multiple Sources Sought for your Industry

Pick a industry

Why pick just 1 industry?

Picking a industry means letting the people around you and the government know how to help you and most importantly how you can help them

Picking an industry is tough for everyone because it involves making a seemingly permanent solution but that is not the case.

You are deciding where you want to begin, not where you end up.

Benefits

- Helps you with market research
 - Allows you to narrow down Key Words, NAICS, PSC codes
 - Allows you to communicate with decision makers with a singular focus
- Get to the strategy part quicker
 - Who buys what you sell - I'm selling to the government versus I'm selling to this office - here are the people I need to reach
 - Offices you need to contact
 - People to see. Stakeholders. Build org chart
 - Making contact with them

Rules

- Maximum 2 NAICS, PSC or Key Words
- Everyone should know you for one thing
- Double niche down
 - Construction
 - ▶ HVAC construction
 - ▶ Roofing construction
 - IT
 - ▶ ERP
 - ▶ Sharepoint

Pick a industry

What industry should I pick?

- Pick a industry based on one of these three reasons.
 - Current strong connections
 - Past work experience
 - Plenty of Money being spent
- How general or how specific?
 - Top NAICS by Sources Sought [+ Rhino's Bid Alert 07-15-2024](#)
 - Top Construction NAICS
 - Top IT Codes NAICS
 - Top Product NAICS

Top Product Sales NAICS

- Aerospace and Defense Manufacturing:
 - 336413 - Other Aircraft Parts and Auxiliary Equipment Manufacturing
 - 336412 - Aircraft Engine and Engine Parts Manufacturing
 - 336611 - Ship Building and Repairing
 - 336411 - Aircraft Manufacturing
 - 334511 - Search, Detection, Navigation, Guidance, Aeronautical, and Nautical System and Instrument Manufacturing
- Medical and Scientific Equipment Manufacturing:
 - 334516 - Analytical Laboratory Instrument Manufacturing
 - 339112 - Surgical and Medical Instrument Manufacturing
- Electrical and Electronics Manufacturing:
 - 335999 - All Other Miscellaneous Electrical Equipment and Component Manufacturing
 - 334515 - Instrument Manufacturing for Measuring and Testing Electricity and Electrical Signals
 - 334519 - Other Measuring and Controlling Device Manufacturing
 - 334310 - Audio and Video Equipment Manufacturing
 - 334220 - Radio and Television Broadcasting and Wireless Communications Equipment Manufacturing
- Industrial and Commercial Machinery Manufacturing:
 - 333310 - Commercial and Service Industry Machinery Manufacturing

Pick a industry

What industry should I pick?

Top Service Business NAICS

- Technology and Software Sector:
 - 513210 - Software Publishers
 - 541519 - Other Computer Related Services
 - 541512 - Computer Systems Design Services
 - 541511 - Custom Computer Programming Services
 - 518210 - Data Processing, Hosting, and Related Services
- Construction Sector:
 - 236220 - Commercial and Institutional Building Construction
 - 237990 - Other Heavy and Civil Engineering Construction

What if I can't find a Sources Sought what should I do?

- Choose another industry
- Find an old one
- Find an RFP

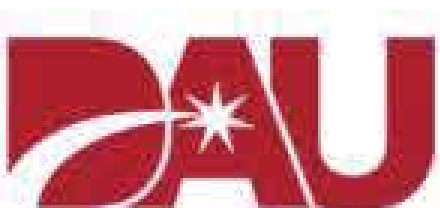

How do I complete a Sources Sought Response

- Letter of Interest
- Capability Statement

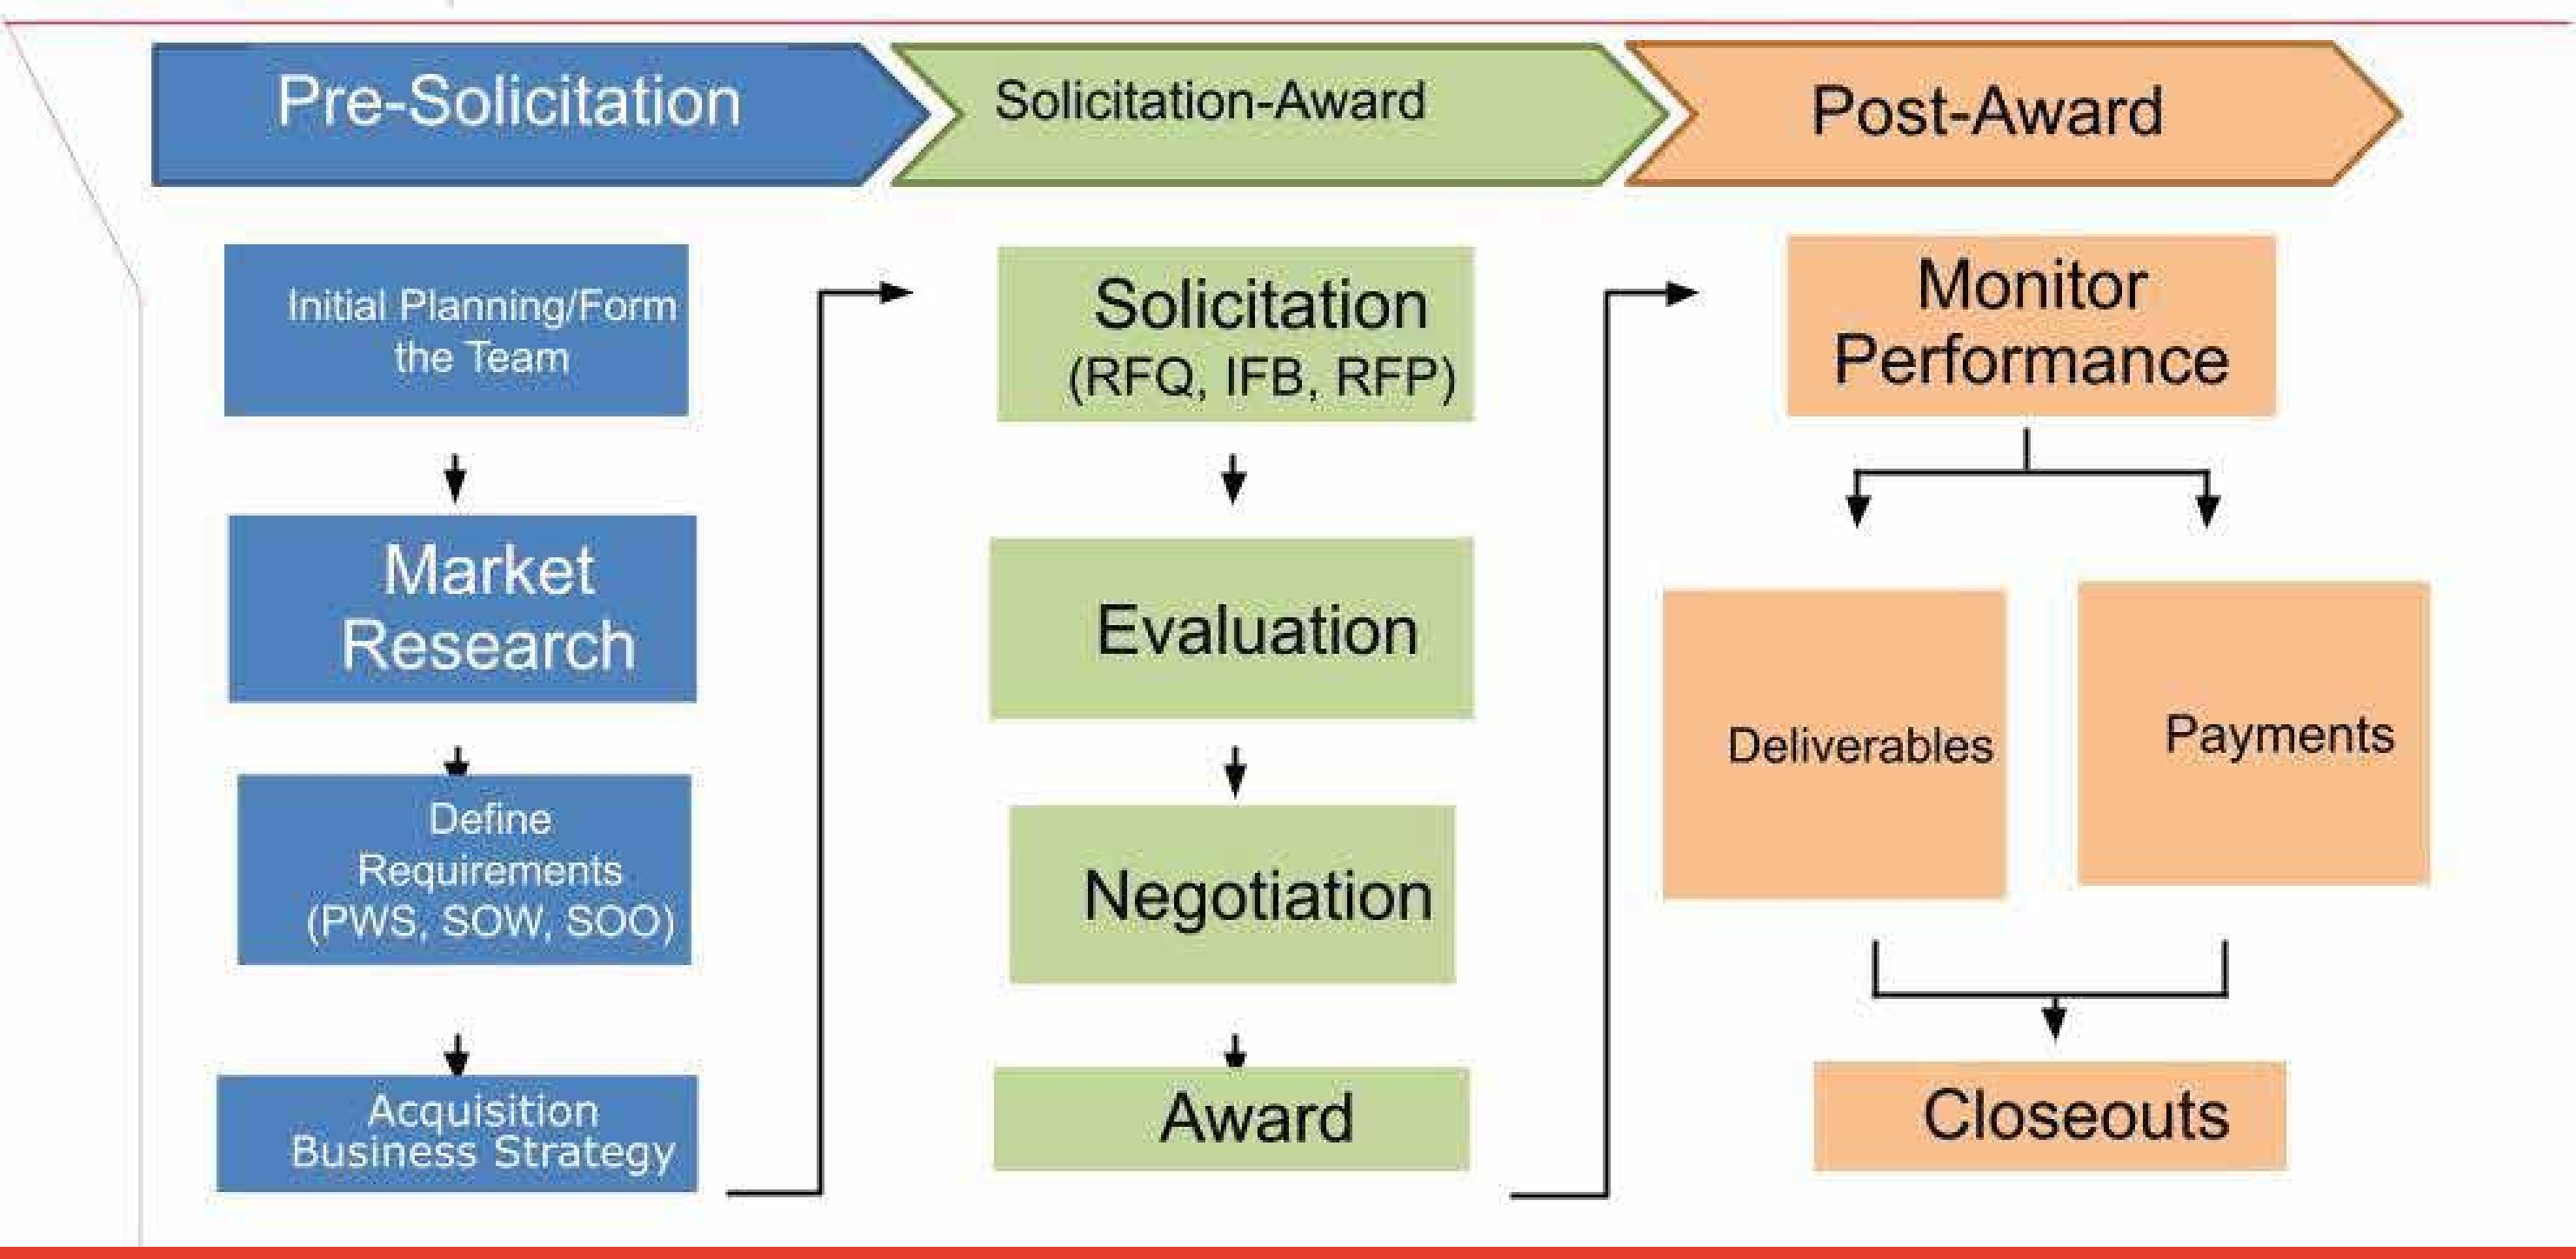

Finds Sources Sought in your Industry

What are the stages of the contracting process?

Contracting Process for Acquisitions flowchart.pptx

Contracting Process for Acquisitions

CONTRACTING PROCESS FOR ACQUISITIONS PROCESS FLOW

General Rule: The contracting process for acquisitions diagram on the preceding slide is generalized for teaching purposes in the **small business courses** and not specific to governing policies and regulatory requirements for any specific type of acquisition (DoDI 5000.2 (ACATs); DoDI 5000.74 (Services) and others). SBPs must understand the type of acquisition applicable to any new and/or recurring requirements and follow those governing policies and regulations accordingly.

Pre-Solicitation	Solicitation-Award	Post -Award
- Phase begins with valid acquisition need driving initial planning and team formation - Phase ends with Acquisition Strategy (AS) that is documented in an Acquisition Plan (AP)	- Phase begins with clearly defined Acquisition Strategy and Acquisition Plan - These may or may not be approved, but guide development of Solicitations and Source Selection Plans (SSP) - DoD Peer Reviews occur prior to obtaining approval to issue a solicitation - Decision Point: Approval To Issue Solicitation - Policy requires prior written approvals of AS, AP, SSPs, DoD Peer Reviews, if any - Exchanges with Industry: Tightly controlled upon issuance of Solicitation through Award of contract(s) - Phase ends when a source selection decision is acted upon via award of the contract(s)	- Phase begins after the competitively negotiated contract(s) is awarded - Phase ends when all contract performance is complete and contract(s) closeout actions are completed

Finds Sources Sought in your Industry

What are the stages of the contracting process?

- **Pre-Solicitation:**
 - **Sources Sought Notices:** Respond to Sources Sought and Requests for Information (RFIs) to show interest and capability.
 - **Networking:** Attend industry days, pre-solicitation conferences, and meet with procurement officers to understand upcoming opportunities.
- **Solicitation:**
 - **Request for Proposal (RFP)/Invitation for Bid (IFB):** Review and analyze the RFP or IFB documents carefully.
 - **Proposal Development:** Prepare a comprehensive proposal or bid that meets the requirements outlined in the solicitation. This includes technical, management, and pricing sections.
 - **Compliance Check:** Ensure that your proposal complies with all solicitation requirements and government regulations.
- **Submission and Evaluation:**
 - **Submit Proposal:** Submit your proposal by the deadline specified in the solicitation.
 - **Evaluation:** The government evaluates proposals based on criteria such as technical capability, past performance, and cost.
 - **Clarifications:** Be prepared to provide additional information or clarifications if requested by the contracting officer.
- **Award:**
 - **Notification:** If selected, you will receive a notice of award or a contract.
 - **Debriefing:** If not selected, request a debriefing to understand why your proposal was not chosen and to improve future submissions.
- **Post-Award:**
 - **Kickoff Meeting:** Attend a kickoff meeting with the contracting officer and project team to discuss contract performance and expectations.
 - **Performance:** Execute the contract according to the terms and conditions. This includes meeting deliverables, timelines, and quality standards.
 - **Reporting:** Provide regular progress reports and communicate with the contracting officer as required.
- **Contract Management:**
 - **Modifications:** Handle any contract modifications or change orders promptly and efficiently.
 - **Invoicing and Payments:** Submit invoices as per the contract terms and ensure timely payment.

Finds Sources Sought in your Industry

What are the stages of the contracting process?

- **Closeout:**
 - **Final Deliverables:** Ensure all final deliverables are submitted and accepted.
 - **Contract Review:** Conduct a review to ensure all contractual obligations have been met.
 - **Final Payment:** Receive final payment and complete any remaining administrative tasks.
- **Early Opportunity Identification:**
 - **Awareness:** Learn about upcoming contracts before formal solicitations.
 - **Preparation:** Align capabilities and resources early.
- **Influence Solicitation:**
 - **Shape Requirements:** Potentially influence final requirements.
 - **Showcase Capabilities:** Highlight your strengths to the agency.
- **Visibility and Networking:**
 - **Visibility:** Increase your presence with procurement officers.
 - **Networking:** Connect with potential partners and subcontractors.
- **Competitive Advantage:**
 - **Understand Competition:** Gain insights into the competitive landscape.
 - **Preparedness:** Position your company as a serious contender.
- **Requirement Understanding:**
 - **Technical Insight:** Better understand project requirements.
 - **Tailored Proposals:** Prepare compliant and competitive proposals.
- **Demonstrate Capabilities:**
 - **Expertise:** Show your experience and reliability.
 - **Identify Gaps:** Find areas needing partnership or improvement.

Responding to Sources Sought notices enhances your strategic positioning and increases your chances of winning contracts.

- **Post-Contract Evaluation:**
 - **Performance Assessment:** The government will assess your performance and provide a Contractor Performance Assessment Reporting System (CPARS) rating.
 - **Lessons Learned:** Conduct an internal review to identify lessons learned and areas for improvement.

Finds Sources Sought in your Industry

What is a Sources Sought?

FAR Subpart 15.201 <https://www.acquisition.gov/far/15.201>

15.201 Exchanges with industry before receipt of proposals.

(a) Exchanges of information among all interested parties, from the earliest identification of a requirement through receipt of proposals, are encouraged. Any exchange of information must be consistent with procurement integrity requirements (see [3.104](#)). Interested parties include potential offerors, end users, Government acquisition and supporting personnel, and others involved in the conduct or outcome of the acquisition.

(b) The purpose of exchanging information is to improve the understanding of Government requirements and industry capabilities, thereby allowing potential offerors to judge whether or how they can satisfy the Government's requirements, and enhancing the Government's ability to obtain quality supplies and services, including construction, at reasonable prices, and increase efficiency in proposal preparation, proposal evaluation, negotiation, and contract award.

(c) Agencies are encouraged to promote early exchanges of information about future acquisitions. An early exchange of information among industry and the program manager, contracting officer, and other participants in the acquisition process can identify and resolve concerns regarding the acquisition strategy, including proposed contract type, terms and conditions, and acquisition planning schedules; the feasibility of the requirement, including performance requirements, statements of work, and data requirements; the suitability of the proposal instructions and evaluation criteria, including the approach for assessing past performance information; the availability of reference documents; and any other industry concerns or questions. Some techniques to promote early exchanges of information are-

techniques to promote early exchanges of information are-

- (1) Industry or small business conferences;
- (2) Public hearings;
- (3) Market research, as described in [part 10](#);
- (4) One-on-one meetings with potential offerors (any that are substantially involved with potential contract terms and conditions should include the contracting officer; also see paragraph (f) of this section regarding restrictions on disclosure of information);
- (5) Presolicitation notices;
- (6) Draft RFPs;
- (7) RFIs;
- (8) Presolicitation or preproposal conferences; and
- (9) Site visits.

(d) The special notices of procurement matters at [5.205\(c\)](#), or electronic notices, may be used to publicize the Government's requirement or solicit

Why do I need to find a Sources Sought?

Finding and responding to Sources Sought notices is important for several key reasons:

Value to us the Students:

- Information on New requirements (not previously listed)
- Not publicized / not searchable
- Demonstrate understanding and value

Value to the Potential Partner:

- Agency Market Research:
 - **Insight:** Agencies use these notices to understand vendor capabilities and interest.
 - **Refinement:** Feedback helps shape realistic and attainable requirements.
- Early Opportunity Identification:
 - **Awareness:** Learn about upcoming contracts before formal solicitations.
 - **Preparation:** Align capabilities and resources early.
- Influence Solicitation:
 - **Shape Requirements:** Potentially influence final requirements.
 - **Showcase Capabilities:** Highlight your strengths to the agency.
- Visibility and Networking:
 - **Visibility:** Increase your presence with procurement officers.
 - **Networking:** Connect with potential partners and subcontractors.
- Competitive Advantage:
 - **Understand Competition:** Gain insights into the competitive landscape.
 - **Preparedness:** Position your company as a serious contender.
- Requirement Understanding:
 - **Technical Insight:** Better understand project requirements.
 - **Tailored Proposals:** Prepare compliant and competitive proposals.
- Demonstrate Capabilities:
 - **Expertise:** Show your experience and reliability.
 - **Identify Gaps:** Find areas needing partnership or improvement.

Responding to Sources Sought notices enhances your strategic positioning and increases your chances of winning contracts.

Finds Sources Sought in your Industry

How to find a Sources Sought?

To find Sources Sought notices, follow these steps:

- **SAM.gov:**
 - **Search:** Use the search function to look for “Sources Sought” notices.
 - **Filters:** Apply filters such as industry, location, and agency to narrow down results.
- **Agency Websites:**
 - **Individual Agencies:** Visit the procurement or acquisition sections of federal agency websites.
 - **Opportunities:** Look for links to procurement opportunities, which may include Sources Sought notices.

Contract Opportunity

Partner Call List

Market Opportunities

Day 4: Have initial meeting with company

Agenda

What is the goal for initial call

- Discovery
- Get consent for meeting

What do I say when I get them on the phone?

- Sources Sought
- Partner opportunity

What should I be looking for in the meeting

- Willingness to work together
- Excited about growth opportunities

How do I pitch my services

- No services we are partners
 - You want to submit your company info along with theirs on all responses
 - You want a joint capability statement
- Benefits
 - They get free marketing
 - You get a large partner with money and experience

Day 4 HW:

- Assignment 1:

Complete Market Opportunities Sheet

- Assignment 2:

Resources

Teaming Agreement

Have initial meeting with company

What is the goal for initial call

The goal is to see if you both can work together. You want to learn what they need and share how you can help.

Have initial meeting with company

What do I say to these companies when I get them on the phone?

- Introduce yourself nicely.
- You have a market research request from the government (ABC office) that they are looking for companies like theirs that do this kind of work.
- You were seeing if they would be a good fit as a potential teaming partner to help complete this request.
- My company can do a portion if they can do the other portion.
 - What portion can you do? This is the reason for the follow up call. To discuss work share.
 - Go over the requirements together.
- Listen to what they need and want.
- Ask if you can talk again to discuss later when they have more time.
- If needed.
 - You would be willing to do all the upfront work and handle submitting the request on our behalf.
 - You are looking for companies in the area who are ready, willing and able to do this type of work. Have the capabilities and capacity.

Remember this is not your meeting. It is a quick discovery call to see if there is interest. Your objective is to get off the phone with a meeting, not close them on this deal.

Have initial meeting with company

What should I be looking for in the call?

Look for signs that they are serious and willing to work with you. Make sure they talk clearly about what they need.

- Willingness to work together
- Excited about growth opportunities

Have initial meeting with company

How do I pitch my services?

Explain how your skills can solve their problems. Keep it simple and clear. Show that you are excited to help.

- No services we are partners
 - I have nothing to sell
 - ▶ I am looking for someone who I can trust to work with on long term prospective deals
 - ▶ I understand this is a long game and I am here for the journey
 - ▶ Everything that I read, says if you want to go fast, go alone if you want to go far, go together
 - You want to submit your company info along with theirs on all responses
 - You want a joint capability statement
- Benefits
 - They get free marketing
 - You get a partner with money and experience
 - You get a FREE estimator
 - You get someone who can perform most of the work
 - You may be able to use your socio-economic certification if you have one
- Drawbacks
 - You may not have all the other pieces needed. Find them!
 - You will not be compensated for building your business
 - This may take up to 6 months to work

Have initial meeting with company

Day 4 HW:

Assignment 1:

Complete Market Opportunities Sheet

Assignment 2:

Resources:

 Teaming Agreement

What's the next steps

- Signed teaming agreement
- Define roles and responsibility

What about charging money?

- Do not charge them money unless ..
 - ▶ They want you to do something specific for them (SAM, DSBS, website, etc.)
 - ▶ Market research info
 - ▶ Attend meetings, events, etc.
- Partnerships value vary based on work share, responsibilities

What are the daily activities that I should be doing now?

- Now implement the actual strategy we teach in Federal Contracting Academy
 - ▶ Market research
 - ▶ Org Chart
 - ▶ Respond to SS
 - ▶ Capability briefings
 - ▶ RFP / RFQ responses
- Communicate often to partner weekly or biweekly
- Continue building pipeline of subcontractors and other partners as you;
 - ▶ Talk to more people
 - ▶ Learn about more opportunities
 - ▶ Learn about additional qualifications needed, certifications required

Day 5 HW:

- Assignment 1:

Prepare to complete this weeks activities

Get company to agree and you start the actual work

They agree and you start the actual work

What's the next steps?

- Define roles and responsibility
- Signed teaming agreement
