

Compliance Matrix Template

Module 4.1 Deliverable - Proposal Support Basics

Purpose

A compliance matrix maps solicitation requirements to your proposal sections, ensuring no requirements are missed. This is a critical proposal support skill.

Use: Complete this template using a real or sample RFP from SAM.gov

Tips for Effective Compliance Matrix

1. **Read the solicitation carefully** - Every “shall” and “must” is a requirement
2. **Use solicitation language** - Mirror their terms in your responses
3. **Cross-reference** - Link each requirement to a specific proposal section
4. **Track owners** - Assign responsibility for each section
5. **Version control** - Update as amendments are issued
6. **Quality check** - Have someone else verify completeness
